Individual training needs are considered at each staff members annual appraisal and as needed.

Compulsory training includes fire and emergency,

infection control, manual handling, elder abuse and missing residents. Competency assessments are conducted regularly across a range of essential skills. We also access online training through an E- learning training provider. We also subscribe to the Aged Care television channel training service who provide a comprehensive library of training DVDs, live training episodes and personal responses to queries raised. Additionally senior staff attend industry conferences and regular network meetings hosted by UPA.
