Residents' recreation
room and cinema

The image shows a modern dining area. On the left, there is an outdoor patio with a table and four chairs. The patio is surrounded by a brick building with large windows and a pergola structure with climbing plants. On the right, there is an indoor dining room with a table, chairs, and a sideboard. The room has a light-colored wall and a large painting. The text "Contemporary dining and in-house catering" is overlaid on the top right of the image.

What our families say about St Vincent's

“

My aunt was adamant that she was NOT going into an aged care facility. She now looks great! She has companions and enjoys being part of the daily activities. She refers to the facility as “home”. The staff are wonderful. They look after her beautifully and treat us as a family with care and advise us regularly what is going on and anything she needs. I am so glad that we as a family chose St Vincent's Care.

Julie Smith

Why do people choose St Vincent's?

People choose St Vincent's because of our tailored care model which focuses on residents getting the right outcomes from their aged care journey.

Outcomes could be as simple as "I like time in the garden everyday", or more complex like "Mum has a fear of new situations and doesn't want to immediately participate in large group activities, but would like to make friends in a one on one setting."

Outcomes, and the paths to them, are different for everyone. We want people to be able to age with dignity and be treated with respect. Having their choices supported is a key part of this.

Specialised care. 24/7 support. This is standard.

As one of the only aged care providers which is part of a wider hospital network, the St Vincent Health Australia network, we have a **unique clinical advantage**.

Our clinical advantage gives us access to:

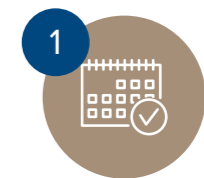

- Expert medical and clinical advice for complex care situations
- Advanced outbreak management procedures and fast-tracked testing services
- Access to palliative care specialists
- Registered nurses on site 24/7

This advantage helps us minimise the risk of outbreaks within our facilities, can improve outcomes for residents, and gives families the extra peace of mind their loved ones are safe.
