INDEPENDENT LIVING

The fully furnished 1 or 2 bedroom independent living units offer open plan living with all the comforts of home and an allocated parking space. The units are co-located onsite with the residential aged care facility. This means we can offer or organise additional services such as care, health, domestic and well-being support. For couples this means they can stay together for longer while living in the same community. Some units offer a 24 hour emergency call system.

For further information about independent living units call (07) 3201 8772.
