

Support at Home Fee Schedule

CASS Care has been caring for Australians over 65 years old and is recognised as an approved service provider of aged care. We specialise in supporting people with complex care needs and dementia to remain living independently in their own homes. Support At Home pricing information is to give you information that is transparent, understandable, and allows you to exercise your choice in receiving services.

Care Management

Care management is a set of activities that contribute to the overall safety, wellbeing, health and quality of life of an older person. Each participant who receives ongoing services will have 10% deducted from their quarterly budget for care management.

Care management involves initial and ongoing:

- understanding of rights and obligations and the establishment and review of service agreements
- care planning
- service planning and management
- development, review and evaluation of a participant's care plan and quarterly budget
- monitoring of services provided
- provision of information and education about the participant's care and services
- support to connect to health and other services when needed
- assistance to request a Support Plan Review, if needed.
