HOME CARE PACKAGE PRICING SCHEDULE

1 August 2025 to 30 June 2026 (or until Support at Home commences)

This Schedule provides information on the price for common services you can access through a Home Care Package. The costs will be deducted from your overall package budget. There are many other services you can access through a Home Care Package that are not listed below. This may include Allied Health services, home maintenance, aids or equipment, which may form part of your Care Plan. Services delivered as part of your Care Plan are GST-free.

Provider Information about service delivery and pricing

integratedliving understands that a fundamental component of provider selection is the consideration of pricing and value for money. We offer high quality services by qualified and experienced staff throughout rural, regional and remote areas of Australia. Our services recognise and address the challenges faced by clients living in these areas and we offer unique support to allow people to continue living independently, stay well, manage chronic illness and stay socially connected to friends, family and their communities.

Care Management

Care Management is a mandatory service that includes ongoing care assessment, planning and coordination. This ensures the services you receive meet the needs and goals identified in your Care Plan. Every Home Care Package, including those being self-managed, will require some level of Care Management.

Approach to Care Management

At integratedliving we support our clients to be independent and remain living at home for as long as possible. We respect and support your right to make informed choices about your care and quality of life. Together with your Case Manager, you will plan your care and services to meet your needs, goals and preferences in order to optimise your health and wellbeing. Care Management consists of:

- Regularly assessing your needs, goals and preferences;
- Reviewing your home care agreement and Care Plan;
- Ensuring your care and services are aligned with other supports;
- Partnering with you and your representatives (if applicable) about your care and services;
- Ensuring your care and services are culturally safe;
- Identifying and addressing risks to the care recipient's safety, health and wellbeing.

Package Management

Package Management are the activities that an approved provider is required to undertake in managing the provision of services under a Home Care Package and managing the quality of care and services included in the package. It includes compliance activities, claiming subsidies, preparing budgets and statements and other activities required of an approved provider.
