

Hawkesbury Living has provided exceptional care and quality services to Richmond's aged community for over 20 years. The country hospitality and warmth of the Hawkesbury Valley are reflected in the atmosphere of our facilities and in the demeanour of our skilled and highly qualified carers and support team.

We currently offer two not-for-profit facilities under the Hawkesbury living banner; The Richmond Community & RSL Nursing Home and The Norman Court Retirement Village. We understand that our residents' dignity is paramount and, regardless of the level of care you require, your comfort, privacy and safety is assured.

Richmond Community & RSL Nursing Home is fully accredited and accommodates up to 65 residents in attractive, spacious rooms. The choice of a single or shared configuration is yours and some rooms offer en-suite bathroom facilities. The nursing home also provides for residents with dementia, in a 16 bed cottage specifically equipped to accommodate their needs.

The Hawkesbury is known for its quality produce and our qualified dieticians create meal plans that maximise the wonderful fresh ingredients available on our doorstep.

Norman Court Retirement Village is home to 14 units designed for independent living. Options range from easy to manage bed sitter style accommodation through to 1 and 2 bedroom units; all are surrounded by beautifully maintained gardens and courtyards. Norman Court's grounds are security patrolled at night and each unit is fitted with back to base fire monitoring and emergency call bells.

Hawkesbury Living is committed to upholding its long tradition of quality care while continually improving our sites, facilities and range of services. We understand that choosing the right level of care and accommodation for yourself or a parent is important and sometimes complex. The Hawkesbury Living team is here to answer your questions so please call 02 4578 2966 to discuss your needs or to make an appointment to visit us on site.
