

Service & Support Pricing Guidelines

HomeMade customers have the opportunity as part of our self-managed model of care, to engage their own services and support that work for them and their situation, which includes scheduling times and negotiating the cost of their services. The amounts we provide in this guideline may vary depending on location, qualifications / experience of a Service Provider and other factors. We encourage all our customers to reach out to us if they engage with a provider who charges above or below the prices listed so that we can support them to ensure the service cost is appropriate. HomeMade does not set the fees for service providers.
