Here's how the **Co-Contribution Fee** under the **Support at Home (SAH)** program is calculated by Services Australia:

### 1. Based on Service Type

- **Clinical services** (e.g., nursing, allied health): **0%** – fully funded by the government.
- **Independence supports** (e.g., personal care, mobility aids): **5%–50%**, depending on your financial means.
- **Everyday living supports** (e.g., cleaning, gardening): **17.5%–80%**, depending on your financial means.

### 2. Based on Income and Assets

Your contribution rate is determined by an **income and assets assessment** (same as Age Pension test):

- **Full pensioners:** Lowest rates (e.g., 5% for independence, 17.5% for everyday living).
- **Part pensioners & CSHC holders:** 5%–50% for independence; 17.5%–80% for everyday living.
- **Self-funded retirees (no CSHC):** Up to 50% for independence and 80% for everyday living.

### 3. Applied Per Service

- You only pay for the services you receive.
- Contributions are calculated as a **percentage of the hourly rate or unit cost** for each service.
- For example:
  - If a personal care visit costs \$100:
    - Full pensioner: \$5–\$17.50
    - Part pensioner: \$17.50–\$50
    - Self-funded retiree: \$50–\$80
