Home Modifications	Low Level Medium Level High Level	$513.00 $2,052.00 $15,390.00	

Management Fees

1) Care Management Fees

Care management supports your safety, health, and wellbeing by ensuring your services are well-coordinated and meet your goals. It includes developing and reviewing care plans, coordinating services, monitoring changes, managing risks, and supporting informed decisions. Activities may involve communication with you, carers, and other professionals, reviewing budgets, and promoting independence and reablement.

A **10% portion of your Support at Home funding** covers these essential care management activities. This ensures your care remains safe, effective, and aligned with your needs over time.

2) Self-Management Overhead Fee

When you choose to self-manage and directly arrange your own services — such as **taxi transport, Chinese medicine & acupuncture, cleaning, or gardening** — a **10% self-management overhead fee** will apply. This small fee helps cover the behind-the-scenes work we do to keep your services safe and compliant, including **verifying workers, managing payments, and meeting Support at Home Program requirements**.

The 10% overhead fee will be deducted from your Support at Home funding as part of the total service cost.

3) Administration and Coordination Fees for Assistive Technology and Home Modifications

If you use funding for Assistive Technology or Home Modifications, administration and coordination service fees may apply.

These fees support the coordination and management of the relevant process, such as liaising with suppliers, following up on quotations or prescription documents, confirming service arrangements, managing payment processes, and ensuring that the services meet the requirements of the Support at Home Program.

The administration and coordination service fees are capped as follows:

Item	Administration and Coordination Fee Cap
Assistive Technology	Up to 10% of the cost of assistive technology, or $500, whichever is lower
Home Modifications	Up to 15% of the cost of home modifications, or $1,500, whichever is lower

These fees will form part of the total cost of the assistive technology or home modifications and will be deducted from the relevant funding.

Service Price List

(GST Free)
