

Pearl Home Care – Newcastle and Hunter

Support at Home Price List

The price for a Support at Home service is the entire cost of delivering services to you. This will be the total amount charged to your budget. If you previously received services under the HCP Program, the price may look different to what you have been paying, as you were charged separately for a service (e.g. cleaning) and for package management (e.g. the cost of training staff and administrating payments etc). Under Support at Home, the price for each service will include those costs and that is the total price you will pay. Prices may also change if the cost of delivering services to you has changed (e.g. due to a wage increase for workers).
