

I COOKED FOR DAD FOR OVER 3 YEARS --- NOW HE DINES OUT BOTH DAY AND NIGHT

Dining with friends is a highlight of the day for many residents. During meal times, residents meet in intimate dining rooms where they are served individually plated meals freshly cooked in-house.

Individual nutrition and dietary requirements are planned in collaboration with dietitians and health professionals as required.

Most of our aged care residences have a lavish private dining room where families can gather to celebrate special occasions together. These intimate rooms can accommodate between 8-10 guests and are the perfect way to create lasting memories.
